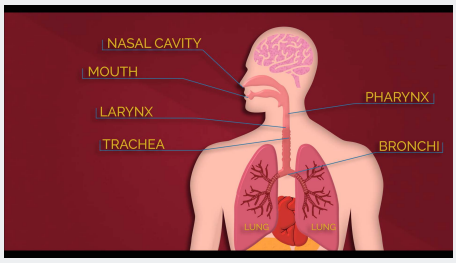
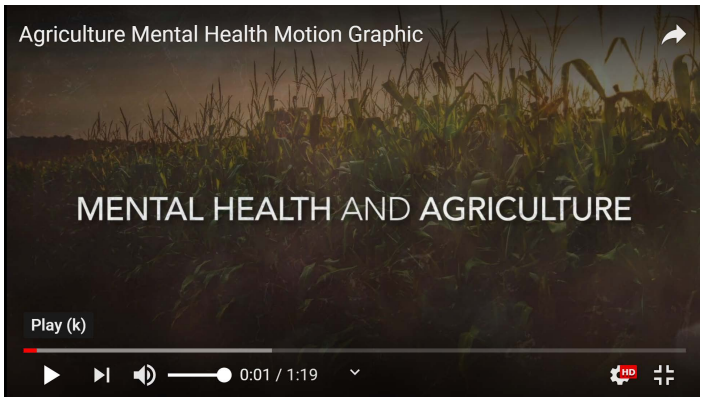
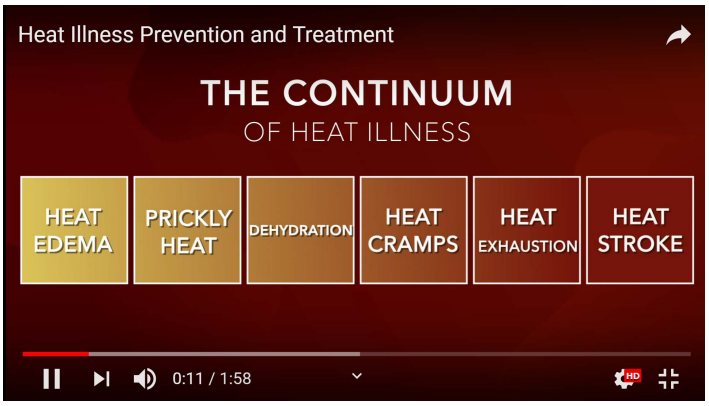
Gear Up for Ag™ Motion Graphics

Ag Health and Safety Alliance™ is able to reach the next generation of agriculture through funding and support from Ag Health and Safety organizations in the United States, Canada, Australia, Denmark and Sweden. Program delivery is a combination of an interactive lecture using a Prezi format and hands on demonstration and interaction with students and instructors. Addition of **motion graphics** within the educational presentation adds an innovative and unique method of getting the message to the participant.

The Ag Health and Safety Alliance™ **Respiratory** Motion Graphic provides important respiratory system information related to agricultural and occupational exposures.







UMASH Upper Midwest Agricultural Safety and Health Center

The Upper Midwest Agricultural Safety and Health Center provided funding to add Mental Health in Agriculture to the Gear Up for Ag™ program and the delivery of programs with this content. This **Mental Health and Agriculture** motion graphic along with discussion points assists with increasing awareness and serves as a conversation starter to encourage students and other individuals who are part of a program to discuss mental health issues and concerns.

Southwest Center
FOR AGRICULTURAL HEALTH, INJURY PREVENTION, AND EDUCATION

The Southwest Center For Agricultural Health, Injury Prevention and Education provided funding to bring the Gear Up for Ag™ program to Ag educators, college Ag students and high school students in Texas. Sun safety and heat illness are high-risk areas for people working in agriculture.

The development of a new **Heat Illness** motion graphic to address this topic in collaboration with the Center assists in the program delivery for the Gear Up for Ag Health and Safety™ program and it will also be available for other work being done by the Center.

Contact us to find out how you can partner with the Ag Health & Safety Alliance™ to be part of the Gear Up for Ag™ program.

GearUp for Ag Health & Safety™

PARTNERSHIP AND SPONSORSHIP

Contributing to the Ag Health and Safety Alliance™ can be done in many ways. Ag Health and Safety education and training can be fun even though it can also be a tough topic to discuss. Our organization is looking for individuals, organizations, and sponsors who are interested in being part of our work to reach the next generation of agriculture. This partnership and support will look different for everyone so we have many ways that you can become involved. Contact us to learn more about the different ways we envision working with you.

PROGRAM PARTNERSHIP

Contact us to find out how you can work with the Ag Health & Safety Alliance™ as a partner or to be part of our programs. We look forward to working with you to **share your resources, collaborate to apply for grants** and to find ways to bring our programs to your community or region.

SPONSORSHIP

Customized Sponsorship

This form of collaboration can be done in many forms. Examples of this type of contribution are the following:

Multi Gen Ag Health

Sponsor a College:

Consider making a donation to bring the Gear Up for Ag Health and Safety™ program to a specific college. Your donation will assist with program delivery expenses and additional PPE that will be provided to the students.
Suggested amounts range from $2,500 to $10,000

Sponsor an event or conference:

The Ag Health and Safety Alliance™ attends conferences and events to promote and deliver presentations about the importance of the Gear Up for Ag Health and Safety™ program and how it relates to the next generation of Agriculture. Conference expenses include registration, display fees and other costs associated with this type of promotion.

Suggested amounts range from $2,000 - $10,000.

Speaking Engagements

Product Sponsor

Gear Up for Ag Health and Safety™ program includes providing participants with safety equipment along with interactive demonstrations about proper fit and use. Find out how we can place your products in the hands of the next generation of agriculture.

Contributor

As a contributing sponsor, you can provide donations in a variety of ways which include marketing, advertising, and travel reimbursement, donation of prizes, printing program materials, and food. We are open to ideas that you may have to become involved in our next generation programs.
