

1. Remove VR viewer from the outside cover.

2. Open and unfold viewer, unfold the flaps on the back of the viewer and pull them towards you.

3. Attach the Velcro on the flaps to the Velcro on the sides of the viewer to create a visor.

4. Scan video QR code and place your phone against the cut-out in the back of the viewer. Your phone should be horizontal with the screen facing you.

5. Close the back flap and attach it to the Velcro on top if the viewer

Look through the viewer lenses.  
You are now ready for virtual reality with the  
cardboard VR viewer.
